"The only action taken against Microsoft should be a statue of Bill Gates erected in the Center of Settle."

Bill Gates and Microsoft have committed no crime. They have created product and services which companies and people have willingly purchased.

Every man has a right to the fruit of his efforts. That includes the corporation he forms. If his product becomes so popular that everyone needs it than he has done his job correctly.

This is America. Where John Adams and our founders set up an environment of freedom, not governmental trials and lynchings.
